

List of Recommended Additional Data Points

Members of the Research Agenda Subcommittee, Policy & Analytics Advisory Group, and Practice & Operations Advisory Group recommended adding the following data points in future phases of the Cradle-to-Career Data System.

California Department of Education

- Science course-taking and test scores

California Department of Education/California Department of Social Services

- Adverse Childhood Event (ACES) scores
- Children in private early care facilities

California Department of Education/California Community Colleges Chancellor's Office

- More reliable information on whether students are dual enrollment students

California Community Colleges Chancellor's Office

- College major
- Whether students have completed Intersegmental General Education Transfer Curriculum (IGETC) and CSU Breadth requirements

California Labor and Workforce Development Agency/California Community Colleges Chancellor's Office

- More nuanced apprenticeship data

California Department of Education/Commission on Teacher Credentialing

- More nuanced information on types of teacher training

Employment Development Department

- Number of hours worked per quarter
- Occupation

Franchise Tax Board

- Employment
- Earnings
- Occupation

All postsecondary institutions

- Whether majors are eligible for financial aid

All education institutions

- More nuanced information on online or hybrid courses
- More nuanced information on participation in support services at the institution or in partnership with community based organizations (such as afterschool programs, participation in support programs that focus on specific populations, access to subsidies for childcare and transportation)
- More information on funding sources and levels of funding
- More nuanced information on number of languages that students speak
- More nuanced information in work-based learning such as participation in internships and whether those internships are paid
- Parental status of students

Additional information

- Familial relationships
- Whether individuals have health insurance
- Military status, from the armed services
