

## UPCOMING WEBINAR

# Using Data to Improve Outcomes for California Students from Cradle-to-Career

### Researchers, Advocates, and Policymakers:

Join us for a webinar on Wednesday, October 14, 2020 from Noon to 1pm

### Are all Californians prepared for success in school and beyond?

Newly linked data systems will significantly enhance California's ability to answer the state's most pressing questions about how well it serves its students.

We invite you to an informational webinar focused on a new, innovative statewide initiative for California that will connect education, social service, and workforce data.

Easy-to-use visuals and graphs, sophisticated search tools, a library of research studies and a process for requesting data will allow you to explore critical questions on:

- The long-term impacts of early learning and care
- Downstream benefits of K-12 interventions
- College and career readiness
- Transfer outcomes
- Financial aid
- Employment outcomes
- And more

In this webinar, you will learn how the new system would:

- Support fair and equitable policy decisions that open pathways for all Californians to thrive
- Inform your ongoing research

.....

**Register today** to learn how the Cradle-to-Career Data System will support decision making in California's schools.
